

Amendments to the Drawings:

FIG. 1 of the drawings is amended to identify the double arrow located at the rotational axis 53. This double arrow is now identified by reference numeral 53a and a replacement sheet is submitted herewith.

Attachment: Replacement Sheet
 Annotated Sheet Showing Changes

Remarks

Claims 1, 4 to 14 and 16 to 29 are pending in this application of which claims 1, 16, 17, 26, 27 and 29 are in independent form.

The applicants' attorney thanks Examiner Mahoney for the telephone conference held on March 6, 2006 at which time the requirement as to the drawings was discussed. Specifically, the applicants are required to show the lateral pivotability referred to on page 2 of the notice of allowability.

In the telephone conference it was mutually agreed that the applicants would amend FIG. 1 of the drawings to identify the double arrow located at the rotational axis 53. This double arrow is now identified by reference numeral 53a and a replacement sheet is submitted herewith.

The applicants' disclosure is also amended to make an appropriate recitation of this reference numeral in the paragraph starting on page 7, line 9.

The drawings should now be acceptable.

Respectfully submitted,

A handwritten signature in black ink, appearing to read "Walter Ottesen". The signature is fluid and cursive, with the first and last names being clearly legible.
